## The Business Continuity Institute (BCI) Professional Practices Training Designing and Delivering Effective Exercises Classroom-based, Instructor-led, and Interactive Learning Environment

### Course Overview

Designing and delivering effective exercises is a skill to be mastered for any continuity and resilience professional. A key part of the Validation stage of the Business Continuity Management Lifecycle, exercising the BCM Programme for some is the most interesting part of the job. It helps us to practice what to do when things go wrong, and builds confidence and a capability that means the organization can more effectively respond, recover, take opportunities, and learn from a disruption. Exercises are the best way to test our systems, rehearse our plans, and a chance to safely prepare our people. This course provides the continuity and resilience professional with the knowledge of how to design and develop an exercises that work. This course is based on the Good Practice Guidelines 2013 and reflects the current global thinking from BS ISO 22301:2014 and BS ISO 22398:2013.

The objectives of this training course are to provide participants with the ability to:
