

**The Business Continuity Institute (BCI) Professional Practices Training
Supply Chain Continuity Management**

Classroom-based, Instructor-led, and Interactive Learning Environment

Course Overview

This course builds on the results of the BCI’s annual Supply Chain Resilience Survey to ensure that its content remains up-to-date and relevant and that it continues to address the supply chain issues that are applicable to organizations based on current trends and developments. This course aims to give individuals an understanding of supply chain risks, including the identification of risks in the supply chain as well as how to identify key suppliers. It offers up different strategies and approaches to mitigate risks in the supply chain, including the integration of business continuity into supply chain risk management in order to achieve supply chain resilience. Individuals will be set the task of undertaking a Supply Chain Mapping exercise for one of their suppliers with a view to identifying risks as well as gaining some practical insights on how to identify key suppliers in their supply chains.

Course Objectives

The objectives of this training course are to provide participants with the ability to:

- Understand supply chain risks;
- Identification or risks in the supply chain;
- Identify key suppliers; and
- Develop strategies and approaches to mitigate supply chain risks.

Who Should Attend?

Business Continuity and resilience practitioners who are looking specifically to further develop their skills in supply chain business continuity. This course will also benefit those professionals who are responsible for purchasing, supply chain management, contract management and procurement. It is recommended that participants have a minimum of a CBCI or equivalent credential with experience working in an organisation in a continuity and resilience related role.

<p>Certificate of Attendance</p> <p>All participants will receive an official certificate of attendance directly from The Business Continuity Institute (BCI).</p>	<p>Course Duration</p> <p>2-day.</p>
